Formedika tape™ Pre-cut Adhesive Kinesio Tapes

Product description
Once reserved to Olympic champions, the Kinesio tape is now available to all.

The unique Kinesio Taping Method works by lifting the skin to allow body fluids under the tape to flow, thus reducing oedema, inflammation and discomfort. The kinesio-adhesive strips are designed to facilitate the healing process by providing support and stability to the affected area. It reproduces in some way the properties of the skin tissue of the body.

The elastic kinesio Formedika Tape™ helps to:
• Reduce pain and inflammation
• Relax overused, tired muscles
• Support muscles by allowing full range of motion

Characteristics
• Made of cotton and spandex
• Stretches up to 140%
• Water resistant
• 3 to 5 days wearing period
• 3 applications per pack
